

BEAUTY QUEEN & HER FATHER TO TACKLE BIG FUN RUN FOR SKIN DISEASE RESEARCH

Beauty queen, Junior Miss Bolton & Bury aka Giorgia Frost, 17, is taking on Manchester's *Big Fun Run* with her dad, Kevin Frost, 46. The father-daughter duo from Castleton in Rochdale will be tackling the 5k fun run to raise vital funds for skin disease research as Giorgia suffers with acne.

Despite the challenges acne can present, aspiring model Giorgia entered a local beauty pageant last year, rather than letting her skin get her down. Her decision was supported by her family decided was crowned **Junior Miss Bolton & Bury in 2015-16** and hopes that her story will be an inspiration to others with skin problems.

She explained, *"I realised that I can achieve my dreams even though I still suffer with acne and I want other people to know they can too."*

After conquering the beauty pageant, Giorgia has decided to do her bit for those like her suffering from skin conditions, by raising money for skin disease research alongside her dad with the *Big Fun Run*. No stranger to hard work, Giorgia has trained alongside studying for her A-Levels.

Kevin says, *"I'm so proud of Giorgia for being confident enough to be herself and wowing at the pageant last year. It's great that she wants to help others with skin conditions and I of course wanted to support her by taking on the challenge too."*

Manchester's *Big Fun Run* will take place on Sunday 21st August, just North West of 18th-century country house, Heaton Hall. The scenic route continues past the lake and the golf course before swinging back to Heaton Hall.

Help Giorgia & Kevin raise money for skin disease research by donating here:

The **British Skin Foundation** is the only UK charity dedicated to raising funds for skin disease and skin cancer research. There are **eight million** people living with a skin disease in the UK, some are manageable and others are severe enough to kill. Skin disease doesn't just affect the skin. It can have a huge impact on a person's day-to-day life, crush self-confidence, restrict movement, lead to depression and put a huge strain on families as well as personal relationships.

Our unwavering commitment to funding quality research means we won't stop until we've found cures for common skin problems like eczema and acne through to potential killers like malignant melanoma. This year the British Skin Foundation turns 20 years old, giving out more than £10 million in grants to over 300 research projects since 1996.
