

Year	BSF Ref	Type of Research	Title of Project	Value	Location
Pre 1998	A	Research Award	Dermatitis in the rubber industry	£500.00	London
Pre 1998	B	Research Award	Handicap in skin disease	£22,000.00	Oxford
Pre 1998	C	Research Award	Purchase of a reflection densitometer	£1,000.00	Nottingham
Pre 1998	D	Research Award	Investigation of diffuse hair loss in young women	£6,250.00	London
Pre 1998	E	Research Award	Clinical and investigative study of the specific dermatoses of pregnancy	£1,500.00	London
Pre 1998	F	Research Award	Study of the factors involved in photosensitivity dermatitis and the use of phototherapy in the treatment of cutaneous photosensitivity	£24,000.00	Dundee
Pre 1998	G	Research Award	Value of plastic embedded sections in the assessment of cutaneous lymphoid infiltrates	£13,500.00	Glasgow
Pre 1998	H	Research Award	Study of bacterial infection in atopic dermatitis patients	£700.00	Aberdeen
Pre 1998	I	Research Award	Evaluate the effects if any on the structure of the cutaneous and muscle vasculature of patients with Raynaud's phenomenon and systemic sclerosis	£21,800.00	London
Pre 1998	2	Research Award	Study of the aetiology of pemphigoid gestationis in relation to materno-fetal interaction during pregnancy	£965.00	Bristol
Pre 1998	4	Research Award	Relationship between sebum excretion androgen receptors in skin and circulating androgen levels	£25,144.00	Bristol
Pre 1998	6	Research Award	Investigate the role of T cells factors in psoriasis	£29,395.00	London
Pre 1998	7	Research Award	Purification and characterization of pemphigus and pemphigoid antigens and development of new assay systems for measurements of specific auto-antibodies	£32,072.00	Cambridge
Pre 1998	8	Research Award	Testing the clonal organisation and proliferation controls of epidermal cell subpopulations	£6,345.00	London
Pre 1998	10	Research Award	Antigen presentation in human lymphocyte mediated skin diseases and its modulation by therapy	£15,000.00	London
Pre 1998	12	Research Award	Control and regulation of isolated human sebaceous glands in health and disease	£25,119.00	Newcastle
Pre 1998	15	Research Award	Study of mechanisms of ultraviolet-mediated activation and tumor promotion in normal human melanocytes	£4,000.00	Newcastle
Pre 1998	16	Research Award	Elevated cyclic AMP phosphodiesterase activity in atopic dermatitis fibroblasts	£18,420.00	Carshalton
Pre 1998	19	Research Award	Pathogenesis of the ocular scarring in the subepidermal bullous diseases	£24,997.00	Oxford
Pre 1998	21	Research Award	Role of amyloid P component in the organisation of normal elastic tissue and in the pathogenesis of localised cutaneous amyloidosis	£5,055.00	London
Pre 1998	26	Research Award	Use of cultured keratinocytes in treatment: Studies concerning allograft survival	£18,000.00	London
Pre 1998	28	Research Award	Determine whether intracellular protease/anti-protease balance is disturbed in keratinocytes grown in the presence of psoriatic fibroblasts, using a skin equivalent model (Reconstructed human skin)	£5,750.00	London
Pre 1998	29	Research Award	Cutaneous adverse drug reaction centre	£16,192.00	London
Pre 1998	31	Research Award	Studies on wound contracture in controlled expanded skin used for donor tissue in reconstructive surgery	£7,500.00	Oxford
Pre 1998	33	Research Award	Study of collagen genes in the Marfan syndrome	£847.00	Harrow
Pre 1998	35	Research Award	Production of inflammatory mediators by human dermal microvascular endothelial cells	£19,086.00	London
Pre 1998	37	Research Award	Investigate the response of keratinocytes to T cell factors in psoriasis	£20,343.00	London
Pre 1998	38	Research Award	Action spectrum for clearance of psoriasis with psoralen photochemotherapy	£4,702.00	Newcastle
Pre 1998	39	Research Award	Antigenic and physiological changes during hair cycle	£16,148.00	Oxford
Pre 1998	40	Research Award	Animal model for atopic dermatitis	£20,910.00	Glasgow
Pre 1998	41	Research Award	Control of intracellular calcium: A comparison of cells from normal skin and from skin of patients with psoriasis	£6,405.00	London
Pre 1998	42	Research Award	Control mechanisms in melanocytes	£12,405.00	Newcastle
Pre 1998	44	Research Award	Cytokines and the pathogenesis of allergic contact dermatitis and psoriasis	£6,039.00	London
Pre 1998	45	Research Award	Evaluation of serum markers of fibrosis and liver damage in psoriatic patients receiving long term methotrexate	£5,000.00	Manchester
Pre 1998	47	Research Award	Use of multi-wavelength laser Doppler flowmetry in the assessment of psoriatic morphology and the effectiveness of its treatment	£9,200.00	Oxford
Pre 1998	48	Research Award	Chemokinetic experiments on the Langerhans cells	£6,100.00	Edinburgh
Pre 1998	51	Research Award	Human monoclonal antibodies in melanoma	£13,454.00	London
Pre 1998	52	Research Award	Control mechanisms in melanocytes - Continuation Project of No 42	£22,730.00	Newcastle
Pre 1998	54	Research Award	An investigation into Langerhans cell CD23 expression in atopic dermatitis and its modulation (Project extended )	£21,692.00	London
Pre 1998	55	Research Award	To investigate the role of T lymphocytes and dendritic cells in the immuno-pathogenesis of dermatitis herpetiformis	£20,947.00	London
Pre 1998	58	Research Award	Transendothelial migration in vitro of blood lymphocytes in Sezary syndrome and mycosis fungoides ( Project extended twice)	£5,978.00	London
Pre 1998	59	Research Award	The epidermis as a source of platelet activating factor(PAF)	£4,660.00	Hatfield
Pre 1998	60	Research Award	The molecular genetics of Darier's disease	£7,500.00	Oxford
Pre 1998	62	Research Award	Pemphigus: A comparison of disease susceptibility and pathogenic mechanisms in Indian and UK populations	£14,182.00	Oxford
Pre 1998	63	Research Award	Quantification and immuno-localisation of lipocortins in normal and diseased human skin	£26,251.00	Bath
Pre 1998	66	Research Award	Platelet activating factor as a mediator in common inflammatory dermatoses	£4,500.00	London
Pre 1998	69	Research Award	The role of skin barrier function in contact and other types of dermatitis	£12,230.00	Glasgow
Pre 1998	71	Research Award	Expression of retinoic acid and receptor genes in skin disease	£19,722.00	Newcastle
Pre 1998	75	Research Award	The Peptidergic innervation of the pilosebaceous unit in skin from acne bearing areas in acne patients and normal controls, and of inflamed acne papules	£4,529.00	Nottingham
Pre 1998	78	Research Award	The response of keratinocytes to cytokines in psoriasis	£57,044.00	London

Pre 1998	80	Research Award	Ultrastructural localization of epidermal basement membrane and related antigens in human skin using cryoultrathin sections	£2,530.00	London
Pre 1998	86	Research Award	Investigation of TCR V Gene usage and cytokine receptor expression in psoriasis by a non-radio-active in situ hybridisation technique	£20,158.00	London
Pre 1998	90	Research Award	The control of epidermal cell adhesion	£10,199.00	London
Pre 1998	94	Research Award	Investigation of the functional characteristics of the isolated human Langerhans cells	£25,885.00	London
Pre 1998	96	Research Award	Linear IgA disease: further characterisation of the target antigens and identification of their genes	£28,656.00	Oxford
Pre 1998	97	Research Award	A genetic study of erythropoietic protoporhyria in Northern Ireland	£6,950.00	Belfast
Pre 1998	98	Research Award	Linkage analysis of weber-cockayne epidermolysis bullosa simplex	£7,950.00	Belfast
Pre 1998	103	Research Award	Interleukin-1 receptor expression in psoriatic epidermis	£9,560.00	London
Pre 1998	107	Research Award	The role of dermal macrophages in cutaneous inflammation	£20,000.00	London
Pre 1998	111	Research Award	Alterations in human telomere length in human skin disease	£23,386.00	Newcastle
Pre 1998	112	Research Award	Role of neuropeptides in cutaneous inflammation	£26,766.00	London
Pre 1998	115	Research Award	Predictors of atopic dermatitis among black children in London and Jamaica	£13,461.00	London
Pre 1998	119	Research Award	The regulation of cytokine gene production in inflammatory dermatoses	£69,540.00	Sheffield
Pre 1998	122	Research Award	The molecular genetics of alopecia areata	£69,540.00	Sheffield
Pre 1998	124	Research Award	Genes influencing susceptibility and outcome in psoriasis: A study of polymorphic cytochrome P450 and glutathione S transferase loci	£25,472.00	Birmingham
Pre 1998	127	Research Award	Geographical epidemiology of atopic eczema among 7 years old British children	£12,900.00	Nottingham
Pre 1998	128	Research Award	Identification of natural antimicrobial peptides	£61,170.00	London
Pre 1998	129	Research Award	Characterization of adhesion of pityrosporum ovale to human comeocytes	£15,431.00	Glasgow
1998	172	Research Award	Genetic mapping of locus for Netherton Syndrome (NS) by genome-wide linkage study and homozygosity mapping	£34,424.00	Oxford
1998	178	Research Award	A molecular cloning approach to the identification of lesional T cell autoantigens in inflammatory skin disease: preliminary feasibility studies	£37,242.00	Leicester
1998	184	Research Award	UVA susceptibility of skin cells cultured from Smith-Lemli-Opitz Syndrome	£29,412.00	Bath
1998	189	Research Award	The functions of Connexin 26 and gap junctions in skin	£20,280.00	Glasgow
1998	190	Research Award	The role of the melanocortin 5 receptor (MC5R) in human skin physiology and skin disease	£31,216.00	Newcastle
1998	192	Studentship	Analysis of cyclophilins-cyclosporin A binding proteins - as inflammatory mediators in skin disease	£12,370.00	Newcastle
1998	196	Research Award	Molecular cytogenetic analysis of cutaneous T-cell lymphomas using comparative genomic hybridisation	£66,185.00	London
1998	199	Research Award	Economic study of acne prescribing in Britain	£13,742.00	Oxford
1999	200	Fellowship	Identification and characterisation of psoriasis susceptibility genes	£109,500.00	London
1999	205	Research Award	Characterisation of the role of BP180- and BP320-specific T cells in the pathogenesis of the cicatricial and bullous pemphigoid	£91,070.00	Oxford
1999	219	Research Award	The Spectrum of Mitochondrial DNA deletions and mutations as a biomarker for cumulative exposure of human skin to ultraviolet radiation	£34,980.00	Newcastle
1999	221	Studentship	Integrated behavioural and neurophysiological studies on itch: development of an animal model	£42,000.00	Edinburgh
1999	226	Research Award	Randomised, double-blind, controlled trial of azathioprine in moderate to severe atopic eczema	£40,372.00	Newcastle
1999	229	Research Award	Desmosomal proteins as leukocyte chemoattractants in psoriasis	£14,000.00	Manchester
2000	276	BSF/Vitigo Studentship	The identification and characterisation of autoantigens in vitiligo	£41,230.00	Sheffield
2000	277	Small Grant	Anti-melanA autoantibodies in vitiligo	£8,720.00	Sheffield
2000	283	Small Grant	Molecular basis of lipoid proteinosis and kindler syndrome	£9,860.00	London
2000	287	Small Grant	A randomised double-blind comparative study of treatment regimens for 8 methoxypsoralen bath PUVA	£5,022.00	Dundee
2000	288	Research Award	Identification of hair follicle antigen targets in alopecia areata	£47,635.00	Bradford
2000	291	BSF/BSID Studentship	Do oestrogens have an important role in human skin and the pilosebaceous unit	£44,000.00	Bradford
2000	300	Research Award	Melanocortin 1 receptor variants and alpha-melanocyte stimulating hormone-induced interleukin-10 expression	£39,713.00	Southampton
2000	304	Research Award	A randomised placebo-controlled double-blind study to evaluate the safety and efficacy of hydroxyurea in chronic plaque psoriasis using novel dosing schedule	£25,000.00	London
2000	305	Research Award	In vitro investigations into the role of retinoic acid receptor alpha (RARα) in human skin ageing	£28,750.00	Manchester
2000	306	Research Award	Isolation of intrabodies with therapeutic potential for the treatment of genital warts	£26,188.00	Manchester
2000	309	Research Award	The development of risk reduction strategies for the prevention of dermatitis in the UK printing industry	£28,000.00	Leicester
2000	318	Small Grant	Can a positive photopatch test be induced by subclinical irritancy or allergy plus sub-erythral UV exposure	£2,300.00	Dundee
2001	329	Research Award	Characterisation of deletions and translocations involving 1p and 10q in Primary Cutaneous T-cell Lymphoma	£44,130.00	London
2001	331	Small Grant	Development and characterisation of αvβ6 – blocking cyclic peptides	£7,937.00	London
2001	335	Small Grant	Molecular Basis of Hidradenitis Suppurativa	£9,750.00	Dundee
2001	343	Studentship	Identification of the protein kinases that modulate the UVB-dependent activation of p53	£54,000.00	Dundee
2001	347	Small Grant	Analysis of DNASE1 gene mutations in systemic and cutaneous lupus erythematosus	£6,800.00	London
2001	353	Fellowship	The Inflammatory and immunomodulatory mediators involved in the acute skin responses to topical photodynamic therapy (PDT)	£39,800.00	Manchester
2001	354	Studentship	The Role of Mitochondria in UV-induced oxidative stress	£54,000.00	Newcastle
2001	356	Research Award	Cutaneous anti-oxidant defences as determinates of the inflammatory response to physico-chemical insults	£34,628.00	Southampton

2002	400	Fellowship	The role of extracellular matrix protein 1 (ECM1) in human skin	£15,000.00	London
2002	404	Small Grant	HPV typing of cytobrush and biopsy specimens. HLA typing of 210 specimens. Genotyping for p53 of 210 specimens	£8,330.00	Oxford
2002	410	Research Award	An investigation of Epidermal Langerhans' Cell Trafficking in Psoriasis	£22,414.00	Manchester
2002	413	Studentship	Immunomodulatory activities of the complement system in inflammatory skin diseases	£54,000.00	Leicester
2002	415	Research Award	Genetic analysis of susceptibility candidate genes for adult atopic dermatitis	£47,235.00	London
2002	417	Small Grant	Consumables for DNA microarrays	£10,000.00	London
2002	420	Fellowship	An Investigation of the clinical and photobiological effects of UVA, in humans using a high output source.	£50,000.00	Dundee
2002	423	Small Grant	The influence of glutathione S-transferase (GST) genotype on response to narrow band UVB (TL-01) phototherapy	£9,250.00	Dundee
2002	425	Studentship	Regulation of Keratinocyte motility in models of wound healing: The role of beta-centaurin ARF-GTPase Activating Proteins	£54,000.00	Newcastle
2002	428	Research Award	Nitric Oxide (NO) in the treatment of psoriasis	£21,349.00	Edinburgh
2002	430	Fellowship	The role of mitochondrial DNA damage in the therapeutic action of dithranol in psoriasis	£50,000.00	Newcastle
2002	431	Small Grant	A Randomised controlled trial of Wet Wrap Therapy in the treatment of childhood atopic dermatitis	£8,820.00	Dundee
2003	S517	Small Grant	Developing and validating the core content of a national undergraduate dermatology curriculum	£1,598.00	Oxford
2003	S525	Small Grant	For HLA-typing of Leicestershire patients with pemphigus vulgaris	£3,000.00	Leicester
2003	S554	Small Grant	Investigation of mechanisms underlying cutaneous drug hypersensitivity	£10,000.00	Southampton
2003	501	Research Award	The antibody response to the melanin-concentrating hormone receptor in vitiligo	£59,867.00	Sheffield
2003	508	Research Award	Functional study of the JUNB oncogene in primary cutaneous T-cell lymphoma	£57,971.00	London
2003	518s	BSF/ Scleroderma Trust Research Award	Molecular Analysis of Altered Biomechanical Properties of Skin Fibroblasts in Scleroderma (BSF/Maria Scleroderma Therapy Trust Award)	£58,640.00	London
2003	521s	Studentship	Identification of components in the initial scaffold for cornified envelope assembly	£54,000.00	Durham
2003	536f	Fellowship	The Clinical Measurement of Itch as Scratching Using Digital Accelerometers	£50,000.00	Edinburgh
2003	547s	Studentship	Role of Calcineurin/NFAT signalling in mediating the effects of ultraviolet radiation in keratinocytes and human skin (S)	£54,000.00	Newcastle
2003	555s	Studentship	Penetration of peptoid analogues of methotrexate and alpha-melanocyte stimulating hormone into skin (S)	£54,000.00	Southampton
2003	557	Research Award	Human Papillomavirus associated mutagenesis in the pathogenesis of non-melanoma skin cancer	£59,930.00	London
2003	562	Research Award	Hair follicle-derived dermal stem cells - a novel and improved source of dermis for skin replacement	£59,969.00	Durham
2004	S001	Small Grant	A Qualitative Study of optical coherence tomography in the imaging of laser-resistant port wine stains	£9,200.00	Bedford
2004	S004	Small Grant	Pilot studies to inform the design of a UK multi-centre randomised controlled trial of prophylactic antibodies for the prevention of cellulites of the leg	£9,920.00	Nottingham
2004	S013	Small Grant	Randomised double-blind cross-over trial of adjuvant dapsone in the treatment of chronic idiopathic urticaria	£5,088.00	Middlesbrough
2004	S020	Small Grant	To access whether vitamin D deficiency is a significant problem in patients with erythropoietic protoporphyria by funding biochemical analysis of samples already obtained	£3,440.00	Cardiff
2004	S021	Small Grant	595nm pulsed dye laser for the treatment of inflammatory acne	£10,000.00	Carshalton
2004	S024	Small Grant	Study of immunogenetics in prepubertal boys with lichen sclerosus	£3,000.00	Basingstoke
2004	S028	Small Grant	A randomised controlled trial of Wet Wrap therapy in the treatment of childhood dermatitis	£6,782.13	Dundee
2004	B001	BSF/BDNG Small Grant	To compare, contrast and critically evaluate the use of a laser quality of life(QoL) index tool before laser therapy and post laser therapy	£2,850.00	Scotland
2004	B002	BSF/BDNG Small Grant	To part-fund a PhD study - An exploration of adolescent sun related behaviour	£5,000.00	Dorest
2004	600	Research Award	Genetic, protein and functional analyses on the origin of the skin disorder, tylosos type A	£59,632.00	Liverpool
2004	605f	Fellowship	Nitric Oxide as a regulator of apoptosis and inflammation in human skin following ultraviolet radiation	£50,000.00	Edinburgh
2004	610	Research Award	Analysis of malignant conversion in multistage HK1.ras/fos transgenic mouse skin carcinogenesis via inducible, conditional PTEN knockout	£34,375.00	Glasgow
2004	615	Research Award	Genetic variants of the autoimmune regulator(AIRE) promoter: Analysis of their effect on AIRE gene expression, activity and possible role in the pathogenesis of alopecia areata	£51,396.00	Sheffield
2004	622	Research Award	Functional analysis of the role of gasdermin in sebaceous gland differentiation and sebum production	£59,941.00	Cardiff
2004	623	Research Award	A Study to assess the influence of genotype on the development of liver dysfunction in Erythropoietic Protoporphyria	£15,624.00	Cardiff
2004	624	Research Award	Clinical relevance of novel epidermal autoantigens and Streptococcus pyogenes infections in psoriasis	£43,353.00	Leicester
2004	625	Research Award	Genetics of female pattern hair loss	£58,891.00	Sheffield
2005	S105	Small Grant	Methotrexate in adults with severe atopic dermatitis: a double-blind trial, randomised, parallel-group, placebo-controlled trial	£9,985.00	Nuneaton
2005	S113	Small Grant	Contributing to the costs of a Unifilter Cell Harvester	£10,000.00	Southampton
2005	S115	Small Grant	Consumables purchase of the microarrays	£8,550.00	London - KCL
2005	S116	Small Grant	The development of a clinical database for the severe drug eruptions	£9,500.00	London - KCL
2005	S118	Small Grant	Do Low Serum Levels of Mannan-Binding Lectin relate to Outcome of Atopic Eczema?	£5,960.00	Leicester
2005	S121	Small Grant	Consumables for pilot work to detect and confirm TCR-Vb family restriction by skin derived T-cells after patch tests for allergic contact dermatitis	£10,000.00	Leicester
2005	S/BS1	BSF/BSDS Small Grant	Study of skin pigmentation in providing protection against skin cancer	£2,000.00	Cambridge
2005	S/BS3	BSF/BSDS Small Grant	Genome-wide SNP microarray mapping of cutaneous squamous cell carcinomas: are there "genetic fingerprints" for high risk tumours?	£10,000.00	London - QMUL
2005	B003	Small Grant	To compare the level of knowledge about melanoma and the frequency of skin self examinations (SSE) between patients already attending the dermatology clinic for pigmented lesions compared to controls. To assess the support and education needed to improve the frequency of SSE for the early detection of melanoma	£9,993.00	Hertfordshire
2005	B004	Small Grant	To cover salary costs for one day a week to support the completion of applicant's PhD studies - An exploratory study of parental needs and knowledge when caring for a child with eczema	£5,925.00	Southampton

2005	703	Research Award	Effect of 4-methylumbelliferone on hyaluronan synthesis by dermatomyositis and scleromyxedema-like dialysis patient fibroblasts within a living skin equivalent	£37,619.00	Glasgow
2005	711	Research Award	Definition of the chemical and immunological signals associated with the development of contact dermatitis	£39,541.00	Liverpool
2005	713s	Studentship	An investigation of the effects of the natural photoimmunosuppressant, cis-urocanic acid, on the human skin immune system	£65,000.00	Manchester
2005	719	Research Award	Basement membrane pores in skin	£59,970.00	Southampton
2005	722f	Fellowship	Biological and therapeutic implications of cell immortalisation in melanoma	£50,000.00	London - St George's
2005	723f	Fellowship	Prognostic Factors in Pemphigus Vulgaris	£50,000.00	London - KCL
2005	725	Research Award	The role of Axl in keratinocyte survival and skin cancer formation	£60,000.00	London - QMUL
2005	BSF/NES01	BSF/National Eczema Society	The role of profilaggrin mutations in itchyphosis vulgaris and eczema	£54,303.00	Dundee
2005	BSF/NES02	BSF/National Eczema Society	Impaired control of lymphocyte senescence and regulatory T cells in atopic eczema - the basis of persisting disease?	£59,934.00	London - Royal Free
2006	S201	Small Grant	Elucidating the genetic mechanisms of ABCA12-associated Harlequin Ichthyosis	£10,000.00	London - QMUL
2006	S203	Small Grant	To Support a Prospective Multi-Centre Questionnaire Study on the assessment of the Quality of Life of Patients with Photodermatoses	£1,739.00	Cardiff
2006	S204	Small Grant	Purchase of a chromatography system and purified matrix metalloproteinase enzymes	£9,863.00	Manchester
2006	S210	Small Grant	To Fund a Clinical Study to Investigate a New Alternative to Conventional Injections	£5,610.00	Cardiff
2006	S213	Small Grant	To Audit Undergraduate Curricula Against the Learning Outcomes Recommended in the Core Undergraduate Curriculum for Dermatology	£2,287.00	Oxford
2006	S214	Small Grant	Defining novel therapies for cutaneous malignant melanoma through targeting endoplasmic reticulum stress	£10,000.00	Newcastle
2006	S219	Small Grant	Does Optical Doppler Tomography Correlate with Vascular Pathology in Psoriasis?	£9,789.00	Manchester
2006	S/BSPD/01	BSF/British Contact Dermatitis Society Small Grant	Laboratory-Based Investigation to Identify Mechanisms Enabling Infiltration of T Cells into the Skin and the Initiation of Eczema in Infancy	£5,960.00	Swansea
2006	S/BCDS/02	BSF/British Contact Dermatitis Society Small Grant	Nickel Dermal Exposure in Various Occupational Settings	£9,980.00	Sheffield
2006	802	Research Award	Identification of Desmoglein 3 (DSG3) mutations in patients with Pemphigus Vulgaris	£15,900.00	London - KCL
2006	805	Research Award	Genetic investigation of patients with early onset lymphatic dysplasia	£59,106.00	London - St George's
2006	806	Research Award	Local and systemic immune responses to human papillomavirus in genital skin infection	£58,787.00	Cambridge
2006	807s	Studentship	"START" regulation of lipid trafficking during keratinocyte differentiation	£65,000.00	Glasgow
2006	809s	Studentship	Implication of BRAF V600E mutation in developing novel therapies for cutaneous melanoma through targeted endoplasmic reticulum stress induced apoptosis	£65,000.00	Newcastle
2006	817s	Studentship	Modelling Basal cell Carcinoma	£65,000.00	London - QMUL
2006	819	Research Award	Are photosensitive patients acquiring sufficient vitamin D in the UK	£29,512.00	Manchester
2006	824f	Fellowship	Determinants of localisation of varicella-zoster replication in skin	£50,000.00	London - QMUL
2006	825s	Studentship	Evaluation of the effect of histone deacetylase inhibition on abnormalities of the STAT signalling pathways in primary cutaneous T cell lymphoma (CTCL)	£65,000.00	London - KCL
2007	S301	Small Grant	Characterising autoantibody targets in vitiligo	£9,999.00	Sheffield
2007	S302	Small Grant	Analysis of the GATA1 gene in patients with Congenital Erythropoietic Porphyria	£10,000.00	Cardiff
2007	S307	Small Grant	Determination of differential gene expression occurring during wound healing	£10,000.00	Glasgow
2007	S313	Small Grant	Study to investigate the genetic basis of childhood atopic eczema	£9,797.00	Newcastle
2007	S314	Small Grant	Assay to detect Diphenylpropane and/or the metabolite Diphenylacetylene in blood and urine following topical application for the treatment of alopecia areata	£8,841.00	Pontefract
2007	S315	Small Grant	Safety of Corticosteroids in pregnancy	£7,000.00	Oxford
2007	S316	Small Grant	To investigate different methods of measuring microvascular structure and function in skin	£9,937.00	Manchester
2007	S317	Small Grant	Pilot studies for a multicentre clinical trial studying topical and oral treatments for pyoderma gangrenosum patients (STOP-GAP)	£9,710.00	Aberdeen
2007	S321	Small Grant	Pilot project to investigate the effects of porphyrins on human hair growth in vitro	£10,000.00	London - KCL
2007	902	Research Award	Investigation of circulating and lesional antigen-specific T cells during primary varicella zoster virus infection	£70,000.00	Oxford
2007	907s	Studentship	Kindlin-1 protein-protein interactions and functional relevance to Kindler syndrome	£75,000.00	London - KCL
2007	908s	Studentship	Profiling microRNA expression in basal cell carcinoma	£75,000.00	London - QMUL
2007	920f	Fellowship	Cutaneous control of adaptive immune responses in atopic dermatitis	£60,000.00	Southampton
2007	921f	Fellowship	Functional studies of ABCA12 in Harlequin Ichthyosis	£60,000.00	London - QMUL
2007	928	Research Award	A molecular genetic investigation of acne vulgaris: identification of susceptibility genes relevant to disease pathogenesis	£60,000.00	London - KCL
2007	929s	Studentship	The role of the B2-adrenoceptor in dermal endothelial cell migration and skin wound angiogenesis	£75,000.00	Leicester
2007	941s	Studentship	The role of epidermal AKT isoforms in skin carcinogenesis	£75,000.00	London - QMUL
2007	942f	Fellowship	Effect of anti-TNF therapy on the skin immune system	£60,000.00	London - KCL
2008	S401	Small Grant	Lymphovascular invasion in melanoma	£10,000.00	Nottingham
2008	S402	Small Grant	The grant will be used to help investigations into atopic disease and immunological responses	£10,000.00	Oxford
2008	S403	Small Grant	A pilot study for a large observational study of presumed bacterial skin infections in primary care	£9,459.00	Cardiff
2008	S409	Small Grant	Investigation of the role of novel transcriptional variants of Serum/glucocorticoid regulated Kinase in NFkB mediated keratinocyte survival	£9,860.00	Newcastle
2008	S410	Small Grant	The purchase of a spectroradiometer to make measurements of UVR spectra used in two PhD projects	£5,209.00	London - KCL
2008	1001	Research Award	FLG gene mutations and the genetic architecture of atopic eczema in the Scottish population	£69,182.00	Dundee
2008	1002	Research Award	Characterisation of Th17 and regulatory T cells in atopic eczema	£68,900.00	Aberdeen

2008	1006	Research Award	Characterisation of a novel inflammatory pathway underlying psoriasis susceptibility	£69,747.00	London - KCL
2008	1007	Research Award	The basis for decreased responses to recall antigen challenge in the skin during aging	£69,967.00	London - UCL
2008	1018	Research Award	An investigation of scarring alopecia as a potential consequence of immune privilege collapse: lessons from lichen planopilaris	£66,139.00	Manchester
2008	1021s	Studentship	The role of phospholipase-b4 signalling in skin cancer	£75,000.00	London - QMUL
2008	1033	Research Award	Does interleukin-22-dependent upregulation of microRNA contribute to the psoriatic phenotype?	£69,700.00	Liverpool
2008	1039s	Studentship	Mapping the epigenetic landscape in keratinocyte skin carcinogenesis	£75,000.00	London - QMUL
2008	1040	Research Award	Photoactivation of DNA thiobases: a potential novel phototherapy to kill hyperproliferative and malignant skin cells. An assessment of the potential hazards	£69,967.00	London - KCL
2009	S501	Small Grant	Vitamin A and outcome from melanoma	£10,000.00	Leeds
2009	S502	Small Grant	Role of BCL-2 family proteins in oncogenic B-RAF-induced resistance of melanoma to autophagy	£7,672.00	Newcastle
2009	S505	Small Grant	Modelling tumour progression in conditional transgenic mouse skin carcinogenesis	£9,000.00	Glasgow
2009	S506	Small Grant	Revertant mosaicism in Kindler Syndrome	£9,900.00	London - KCL
2009	S509	Small Grant	A pilot study of scabies outbreaks in residential homes for the elderly	£10,000.00	London
2009	S510	Small Grant	The STAT3 signalling pathway in lamellar ichthyosis	£9,604.28	London - UCL
2009	S514	Small Grant	Shining Light on Skin Disease: Characterisation of skin autofluorescence in order to establish its role in distinguishing between normal and diseased skin	£9,972.00	Dundee
2009	S520	Small Grant	Narrowband Ultraviolet B (NB-UVB) phototherapy in children with moderate to severe atopic eczema (AE)	£1,500.00	Newcastle
2009	S527	Small Grant	Re-evaluation of diagnostic criteria for chronic ordinary urticaria and urticarial vasculitis: a new look at mast cell signal transduction and autoimmune chronic urticaria	£9,854.00	Norwich
2009	S534	Small Grant	To determine the relationship between UVA-induced oxidative stress, mitochondrial DNA damage and melanin in human skin	£5,800.00	Newcastle
2009	S535	Small Grant	Vulval squamous neoplasia: correlation of genome-wide genetic profiles, pathogenesis and prognosis	£10,000.00	London - QMUL
2009	BSF/VIT01	BSF/Vitiligo Society Small Grant	Treatment of vitiligo using the Excimer light source	£7,500.00	Sheffield
2009	2002s	Studentship	Alleviating defective autophagy to promote cell death for melanoma therapy	£75,000.00	Newcastle
2009	2007s	Studentship	Dissecting the signalling role of human desmoglein 3, the pemphigus vulgaris antigen	£75,000.00	London - QMUL
2009	2008s	Studentship	Investigating the unfolded protein response pathway in genetic skin disease	£75,000.00	London - QMUL
2009	2010s	Studentship	The contribution of the Notch pathway, a key developmental regulator, to scarring alopecias	£75,000.00	Durham
2009	2018s	Studentship	AKT1-dependent HSPB1 phosphorylation and filaggrin processing in atopic dermatitis	£75,000.00	London - UCL
2009	2025	Research Award	Non-melanoma skin cancer in HIV infection: the role of human papillomavirus (HPV) and individual immunogenotype (HLA 'tissue-type')	£70,000.00	London - Chelsea
2009	2046s	Studentship	Assessing the effects of Merkel Cell Polyomavirus Small T antigens relevant to cellular transformation	£75,000.00	Leeds
2009	2047	Research Award	Case collections and genetic analysis in hidradenitis suppurativa and acne vulgaris	£36,037.00	Dundee
2009	2051f	Fellowship	Mechanism of action of cyclosporine A in atopic eczema and role of cyclophilin B as a regulator of human keratinocyte growth and differentiation	£60,000.00	Newcastle
2010	S601	Small Grant	Identification of a gene for a novel inherited non-syndromic form of ichthyosis	£10,000.00	London - St George's
2010	S603	Small Grant	Developing a new therapeutic approach to target melanoma growth and metastasis	£10,000.00	Norwich
2010	S610	Small Grant	A study to investigate the relationship between skin fluorescence, structure and pigmentation; validation of skin fluorescence as a non-invasive measure of oxidative stress in patients with systemic sclerosis	£9,996.00	Manchester
2010	S617	Small Grant	Comparison of twice weekly compared with thrice weekly targeted broad band Ultraviolet B (UVB) radiation for scalp psoriasis	£3,100.00	Belfast
2010	S621	Small Grant	Novel assays for the investigation of severe cutaneous hypersensitivity reactions	£10,000.00	Southampton
2010	S625	Small Grant	Zinc-finger nuclease mediated gene therapy for blistering skin disease	£10,000.00	Newcastle
2010	S633	Small Grant	The immunoregulatory role of B lymphocyte populations in malignant melanoma	£10,000.00	London - KCL
2010	S638	Small Grant	Gene therapy for Netherton Syndrome	£10,000.00	London - UCL
2010	MRC01	MRC/BAD/BSF Clinical Research Training Fellowship	Molecular genetic analysis of hidradenitis suppurativa	£51,886.00	London - KCL
2010	MRC02	MRC/BAD/BSF Clinical Research Training Fellowship	Induction and repair of UVA (340-400nm) induced cyclobutane dimers (CPD) in human skin in vivo and their biological consequences	£50,000.00	London - KCL
2010	3005f	Fellowship	Validation of WIPI-1 as a biomarker of autophagy and therapeutic target in melanoma	£62,000.00	Newcastle
2010	3007s	Studentship	Disruption of innate antiviral responses in psoriasis	£81,000.00	London - KCL
2010	3013	Research Award	Analysis of p53, p21 and PTEN mediated inhibition of malignant conversion in transgenic mouse skin carcinogenesis	£29,780.00	Glasgow
2010	3021	Research Award	Assessing a putative epigenetic regulator of epidermal homeostasis and wound healing	£73,643.00	London - QMUL
2010	3033	Research Award	Modelling the role of Staphylococcus aureus in atopic eczema	£73,889.00	Southampton
2010	3035s	Studentship	Activation of regulatory T cells by endothelium in inflammatory skin disease	£81,000.00	Southampton
2010	3040s	Studentship	Targeting C20orf20 for cutaneous squamous cell carcinoma therapy	£81,000.00	Dundee
2010	3048	Research Award	The role of Axl signaling in epithelial-mesenchymal transition and stemness in cutaneous SCC	£74,000.00	London - QMUL
2011	S704	Small Grant	A new mild variant of erythropoietic protoporphyria: molecular genetic and enzyme characterisation of this syndrome	£8,640.00	London - KCL
2011	S707	Small Grant	Examining the prevalence of alcohol use disorders (AUDs) in patients with skin disease	£7,126.00	Newcastle
2011	S709	Small Grant	Small-molecule Wnt agonists for skin regeneration	£9,850.00	Southampton
2011	S712	Small Grant	Drug-induced changes to skin barrier lipids	£9,805.00	London - QMUL
2011	S716	Small Grant	An investigation of keratinocyte cross-talk to dendritic cells in inflammatory skin disease	£10,000.00	Southampton
2011	BSF/ISG01	BSF/Ichthyosis Support Group Small Grant	A pilot study to explore the feasibility of computerised psychosocial support (YP Face It) for young people with appearance-related concerns as a result of ichthyosis	£5,000.00	Bristol

2011	4009s	Studentship	Novel therapeutics targeting the WWP2 Ubiquitin Ligase oncogene in malignant melanoma	£81,000.00	Norwich
2011	4025f	Fellowship	Nuclear EGFR as a therapeutic target in BCC	£62,000.00	London - QMUL
2011	4042s	Studentship	An integrated genomic, epigenetic and functional approach to define a role for MTAP in primary Cutaneous T-cell Lymphoma	£81,000.00	London - KCL
2011	4052s	Studentship	Mechanical Regulation of Epidermal Wound Healing and Repair	£81,000.00	London - QMUL
2011	4054	Research Award	The Ras Controversy and the Role of Notch in Human Squamous Skin Cancers	£80,942.00	Dundee
2011	4058	Research Award	From healthy epidermis to eczema: an investigation of the role of filaggrin and its breakdown products in T-lymphocyte and dendritic cell activation	£80,855.00	Edinburgh
2011	4060s	Studentship	Dissecting the role of iASPP, a novel crucial regulator of epidermal homeostasis, in keratinocyte skin carcinogenesis	£81,000.00	London - QMUL
2012	S801	Small Grant	Aetiology of frontal fibrosing alopecia; a questionnaire study	£1,250.00	Sheffield
2012	S810	Small Grant	A genetic investigation of basal cell carcinoma	£9,800.00	Manchester
2012	S820	Small Grant	An exome sequencing approach to understanding palmoplantar pustulosis	£9,600.00	Manchester
2012	S821	Small Grant	Development of multifunctional targeted drug nanocarriers for the treatment of metastatic melanoma	£10,000.00	Norwich
2012	GAR01	Research Award	Multifunctional caged-iron chelators for skin photoprotection	£81,000.00	Bath
2012	MRC03	MRC/BAD/BSF Clinical Research Training Fellowship	The role of CD1a-restricted T cells in the pathogenesis of atopic eczema	£50,000.00	Oxford
2012	5010	Research Award	Importance of the chromatin-modifying enzyme Setd8 in regulating lineage commitment and regeneration processes in skin	£80,533.00	Cambridge
2012	5012	Research Award	The functional characterization of skin resident T cells in patients with melanoma	£80,786.00	London-UCL
2012	5028	Research Award	Cross-presentation of Melan-A by cutaneous CD141high dendritic cells as a strategy to enhance cytotoxic responses against melanoma	£81,000.00	Newcastle
2012	5035s	Studentship	What activates IL-36 in vivo? Investigating the importance of IL-36 in psoriatic inflammation	£81,000.00	Leeds
2012	5042i	Innovative Project	Transcriptional arrest as a novel mechanism for photosensitivity and neurological disease in xeroderma pigmentosum: A phenotype-genotype-cell biology study in a cohort of 70 XP patients	£80,830.00	London-KCL
2012	5044i	Innovative Project	An integrative systems biology approach to characterise the link between reduced biological senescence and melanoma susceptibility	£81,000.00	London-ICL
2012	5047i	Innovative Project	How do skin and gut microbiota relate to the risk of atopic eczema and food allergy in infancy?	£80,608.00	London-KCL
2013	S901	Small Grant	Cannabinoid modulation of pigment formation in human melanocytes	£9,798.00	Nottingham
2013	S905	Small Grant	Is the duration of remission of psoriasis increased by complete clearance versus 'almost' complete clearance following narrowband UVB phototherapy?	£10,000.00	Newcastle
2013	S909	Small Grant	Investigating the course of atopic eczema up to 1 year following completion of Narrowband UVB (NBUBV) phototherapy	£4,900.00	Durham
2013	S918	Small Grant	Highly sensitive C-reactive protein and psoriasis	£9,900.00	Dublin
2013	S920	Small Grant	Pilot evaluation of digital PCR to access circulating tumour DNA <i>BRAF (V600E)</i> mutation in patients with metastatic melanoma on and off vemurafenib	£10,000.00	Oxford
2013	S924	Small Grant	Can attachment style predict coping and success of coping based interventions in people with skin conditions?	£9,757.00	Sheffield
2013	MRC04	MRC/BAD/BSF Clinical Research Training Fellowship	Regulation of Keratinocyte innate immune genes by psoriasis susceptibility alleles	£49,913.00	London
2013	6016s	Studentship	TALEN-mediated gene therapy for epidermolytic hyperkeratosis	£81,000.00	Newcastle
2013	6018s	Studentship	Defining a common mechanism leading to hyperkeratosis in skin disease	£81,000.00	London-UCL
2013	6023f	Fellowship	The role of natural killer cells in control of a cutaneous viral infection	£62,000.00	Oxford
2013	6024s	Studentship	Breaking the 'itch-scratch cycle'	£81,000.00	Leeds
2013	6029s	Studentship	Dissecting the Role of LAnTs and their Receptors in Epidermal Wound Healing and Squamous Cell Carcinoma	£81,000.00	Liverpool
2013	6043s	Studentship	Are BET proteins promising therapeutic targets for the treatment of keloid scars?	£81,000.00	London-KCL
2013	6049	Research Award	Immune dysregulation in hidradenitis suppurativa	£64,028.00	Dublin, Ireland
2013	6056i	Innovative Project	Targeting CD200 signalling to overcome human basal cell carcinoma immune-evasion	£80,990.00	Cardiff
2013	6057i	Innovative Project	How do keratinocytes sense the presence of viral DNA?	£79,331.00	Dundee
2013	6063s	Studentship	p63 regulation by microRNAs and its link with inflammation and the immune response in cutaneous melanoma	£81,000.00	London - QMUL
2014	S1002	Small Grant	A randomised assessor-blinded study to compare narrowband ultraviolet B plus ultraviolet A1 with narrowband ultraviolet B monotherapy for atopic eczema	£10,000.00	Dundee
2014	S1004	Small Grant	Comparative role of epidermal tight junction barrier function in polymorphic light eruption and healthy skin	£9,100.00	Manchester
2014	S1006	Small Grant	Shedding of viruses associated with skin disease in health and immunocompromise	£9,900.00	Cambridge
2014	S1007	Small Grant	Can human platelet lysate in combination with three dimensional scaffolds improve the wound healing properties of human keratinocytes, fibroblasts and endothelial cells?	£9,890.00	Bradford
2014	S1010	Small Grant	Investigating the inhibition of the p53-MDMX Protein - Protein interaction for the treatment of melanoma	£9,949.66	Norwich
2014	S1012	Small Grant	Impact of flavonoids and UVA on the microRNA profile in human skin fibroblast cells	£10,000.00	Leeds
2014	BSF/A01	BSF/Acne Small Grant	Atrophic scarring in acne: the interplay between glucocorticoid metabolism and inflammation	£10,000.00	Leeds
2014	BSF/A02	BSF/Acne Small Grant	Identifying factors that influence antibiotic prescribing habits for acne with a view to changing prescribing behaviours and optimising patient care by minimising the emergence of antimicrobial resistance	£9,992.00	Harrogate
2014	BSF/BPG01	BSF/British Photodermatology Group Small Grant	The Effect of Nutritional Status on Clearance and Remission of Psoriasis following Phototherapy	£9,976.00	Newcastle
2014	BSF/BPG02	BSF/British Photodermatology Group Small Grant	A randomised single blind placebo controlled study of menthol for photodynamic therapy-induced pain	£10,000.00	Dundee
2014	MRC05	MRC/BAD/BSF Clinical Research Training Fellowship	Xeroderma pigmentosum: a model to study molecular, cellular and clinical consequences of specific defects in the nucleotide excision repair pathway	£40,180.80	London-KCL
2014	7002	Research Award	Targeting the persistent activation of mTOR in B-RAF and Nras mutated melanoma as a novel therapeutic strategy	£80,898.00	Newcastle
2014	7006s	Studentship	Defining the Role of MicroRNA-184: Argonaute 2 axis in Psoriasis	£81,000.00	Liverpool
2014	7009f	Fellowship	Contribution of TGFβ2 mediated Ambr-1 down-regulation to melanoma ulceration and metastasis	£62,000.00	Newcastle
2014	7011s	Studentship	A multisensory approach to itch	£81,000.00	Hull

2014	7013s	Studentship	Preventing Staphylococcus aureus colonisation in atopic dermatitis by inhibiting surface protein mediated adherence to skin	£81,000.00	Dublin
2014	7015	Research Award	Genome-wide analysis of DNA methylome during solar-simulated UV skin carcinogenesis	£80,368.00	Dundee
2014	7017	Research Award	Investigation of the cause of impaired Langerhans' cell migration in psoriasis	£73,795.00	Manchester
2014	7028	Research Award	Development of filaggrin upregulating compounds for treatment of eczema	£81,000.00	Dundee
2014	7040s	Studentship	Serpina12 (vaspin) as a novel factor driving the progression of metastatic melanoma	£81,000.00	Dundee
2015	S1105	Small Grant	Inhibition of the Pro-Survival Protein Mcl-1 Treatment of Melanoma	£9,986.16	Norwich
2015	S1108	Small Grant	T cell profile in hidradenitis suppurativa: correlation with disease status and response to therapy	£9,900.00	Dublin
2015	S1111	Small Grant	Impact of limited skin exposure on cutaneous vitamin D production	£9,995.00	Manchester
2015	S1115	Small Grant	A feasibility study to inform an RCT to evaluate an online psychosocial intervention for young people with appearance-altering dermatological conditions (YP Face IT).	£10,000.00	Birmingham
2015	S1121	Small Grant	Inhibiting microRNA-21 expression in psoriasis with curcumin analogue	£10,000.00	Liverpool
2015	8005s	Studentship	Defining the role of slac2-b in skin blistering	£85,000.00	London-KCL
2015	8010i	Innovative Project	Investigation of the causal effects of atopic eczema on other health outcomes	£89,968.00	Bristol
2015	8016s	Studentship	Is the Patient Oriented Eczema Measure (POEM) fit for purpose as the core instrument for patient reported eczema symptoms? A series of linked validation studies to inform the Harmonizing Outcome Measures for Eczema (HOME) initiative	£85,000.00	Nottingham
2015	8021i	Innovative Project	Development of molecular diagnostics for type IV hypersensitivity to antibiotics	£89,842.00	Southampton
2015	8030s	Studentship	Using in vitro models to understand the initial steps in human hair follicle development	£85,000.00	London-ICL
2015	8060	Research Award	Stabilising the Glucocorticoid Response in Psoriatic Skin	£81,000.00	London - QMUL
2015	8066i	Innovative Project	Multidimensional phenotyping in eczema	£89,991.00	London
2016	S1204	Small Grant	Exosomal filaggrin transfer from keratinocytes and generation of lipid-specific immune responses in the skin	£10,000.00	Oxford
2016	S1209	Small Grant	Investigating the role of autophagy and nucleophagy impairment in atopic dermatitis	£10,000.00	London - QMUL
2016	S1212	Small Grant	Breslow Density: A novel prognostic feature in cutaneous malignant melanoma	£5,000.00	Leicester
2016	S1217	Small Grant	Improving diagnostic accuracy and identifying prognostic markers for stage progression and response to treatments for improved management in mycosis fungoides	£9,960.00	Birmingham
2016	S1218	Small Grant	The role of type VII Collagen in SCC angiogenesis	£7,600.00	London - QMUL
2016	S1220	Small Grant	The immunological effects of Vitamin D obtained by UVR versus supplementation	£9,968.00	London-KCL
2016	S1221	Small Grant	Angiogenesis as a novel therapeutic target in psoriasis management	£10,000.00	Manchester
2016	BSF/BPG01.1	BSF/British Photodermatology Group Small Grant	The antioxidant activity of hypotaourine against UV-induced oxidative damage in keratinocytes	£10,000.00	Dundee
2016	BSF/BPG07.1	BSF/British Photodermatology Group Small Grant	Characterisation of circulating T cell populations following phototherapy of patients with atopic dermatitis	£9,600.00	Edinburgh
2016	009/s/16	Studentship	Targeting non-canonical NF-kB signalling in CYLD defective tumours	£85,000.00	Newcastle
2016	016/s/16	Studentship	Targeting selective phosphoinositide 3-kinase isoforms as a novel strategy in cutaneous squamous cell carcinoma	£85,000.00	London - QMUL
2016	023/r/16	Research Award	Mast cells in psoriasis: a therapeutic target?	£80,416.00	Manchester
2016	025/s/16	Studentship	Metagenomic and culture-based characterisation of Propionibacterium acnes communities in patients with severe recalcitrant papulopustular and nodular acne	£85,000.00	Northern Ireland
2016	041/s/16	Studentship	The role of bacteria in the skin: Cold atmospheric plasma for the treatment of pathological skin healing	£85,000.00	Hull
2016	056/i/16	Innovative Project	The basement membrane and lipid biosynthesis in normal and diseased skin	£89,999.00	London - QMUL
2016	059/s/16	Studentship	3D printing a skin model to investigate immunological control of skin cancer development	£85,000.00	Cardiff
2017	001/e/17	Eczema Biologics Register	The UK-Irish Atopic eczema Systemic Therapy Cohort (A*STAR)	£70,000.00	London-KCL
2017	001/SG/17	Small Grant	UVA-induced iron release and sunscreen protection	£7,000.00	Bath
2017	003/SG/17	Small Grant	Uncovering the biological basis of human skin field cancerisation	£10,000.00	Cardiff
2017	008/SG/17	Small Grant	Composition of innate lymphoid cell subsets in skin and blood of patients with hidradenitis suppurativa, correlation with disease severity and response to treatment.	£10,000.00	Dublin
2017	015/SG/17	Small Grant	Scarring Alopecia: Are Rogue Small RNAs to Blame?	£10,000.00	Liverpool
2017	021/SG/17	Small Grant	Development of predictive models for the efficacy of atopic dermatitis treatments using machine learning methods	£9,980.08	London - ICL
2017	001/BPG.SG/17	BSF/British Photodermatology Group Small Grant	A pilot study to compare the RNA transcriptomic response of psoriatic skin to narrow-band UVB phototherapy in the morning and afternoon	£9,915.00	Newcastle
